

The Globally Harmonized System of Classification and Labelling of Chemicals (GHS) is a UN-led initiative to synchronise the classification and labelling of chemicals worldwide. The Classification, Labelling and Packaging (CLP) Regulations (EG Reg 1272-2008) are the regulations for the implementation of GHS in Europe.

This GHS/CLP Awareness workshop is aimed at employees who interact with chemicals on a regular basis and are familiar with handling techniques. The practical aspect of the course ensures that staff are comfortable with all technical aspects of the regulations.

COURSE DURATION

One half-day with a 15-minute refreshment break

COURSE METHODOLOGY & ASSESSMENT

The workshop, while classroom-based and instructor-led, is interactive, with PowerPoint presentations, group work and discussions used to reinforce learning outcomes.

The maximum number of participants is 12.

CERTIFICATION

Upon successful completion of the course, participants will receive a GHS/CLP Awareness Certificate from EMS & Associates.

ENTRY CRITERIA

No previous qualifications are required for learners to participate in the course.

COURSE SYLLABUS

Introduction to GHS Legislation

Obligations for Manufacturers/Importers/End

Changes to Safety Data Sheets (SDS)

Product Classification and Labelling

Understanding and Working on Safety Data Sheets (SDS)
